

SANZAF Special Project

HELP US TO BUILD A SCHOOL!

According to Statistics SA, Nqileni is the most remote village in the poorest district in South Africa. The village has no road, no running water, no clinic, no electricity and no ablution facilities. It once had a humble school building which collapsed in December 2007.

There are currently 210 learners between the ages of 4 and 15 enrolled in the school while there are many more children in the village who are no longer attending school, due to the lack of facilities.

At present education in Nqileni is grossly substandard. The local village school, No-Ofisi Senior Primary School, is the only school within an 8 km radius of the village.

A Rural School of Excellence

But there is hope in Nqileni Village!

A non-profit organisation, The Bulungula Incubator, has embarked on the ambitious project of creating a rural school of excellence.

Construction has already begun on an environmentally-friendly building, creating employment for the local community, and giving hope to the learners who are currently taught outside, without desks, chairs or shade. The intention is that the new school will become a model for future rural school rehabilitation and development in South Africa, Insha-Allah.

ECO-FRIENDLY DESIGN OF NEW SCHOOL USING LOCAL MATERIALS AND CREATING EMPLOYMENT WITHIN THE COMMUNITY

The Bulungula Incubator has already been successful in raising R712 000 towards the building of the grade R rondavel, three classrooms, a combined school & community hall, and temporary ablution facilities. Completion of these buildings will mean that with the coming summer rains, classes that are currently taught on the grass outside will be able to be taught indoors, Insha-Allah.

How you can help

A further R788,000 is urgently needed to complete the school including building an additional two classrooms, a library, school clinic, kitchen, store room, staff area and indoor ablution facilities.

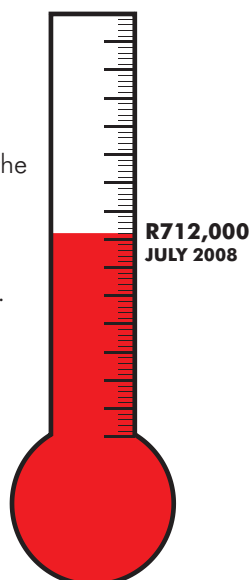

The Bulungula Incubator is aiming to build the two additional classrooms, library, kitchen and toilet block before November 2008, Insha-Allah, so that the school can function optimally.

Because of SANZAF's commitment to helping the poor, the fund is partnering with The Bulungula Incubator in this critical rural school rehabilitation project. We are urgently appealing to you to assist with this worthwhile project.

Your contribution is tax deductible and you will receive a Share Certificate to confirm your involvement in the future of the children of Nqileni village.

To contribute towards the SANZAF Bulungula Incubator School Fund, please fax or e-mail the attached pledge form.

R1,500,000
